

OPEN HEAVEN NIGHTS

PREP

Have a look at your family calendar and along with your family, choose dates in the month where you will participate in worship nights.

Select your favorite worship music to add to the playlist, but it should be music that leads you to be sensitive to the Holy Spirit.

WHAT TO DO?

Worship is the one thing God cannot do for Himself. It is not about the songs we sing, but rather about our heart's posture and position. It is seeking Him more than the things we want in the flesh.

It can be through reading the word of God, praying and being obedient to what He says. We sing to Him to allow His presence to be with us in worship

When the day finally arrives set the scene. Prepare an open area in your lounge for movement and walking. Let your playlist run as you lead your family into worship by using your scriptures that the Lord has placed on your hearts.

Encourage your kids to sing to the songs that they know, but to sing as though they were singing directly to God. With all their hearts. Enjoy as your family draws closer to God together.
