

# I SPY WITH MY EYE

In the car on your way to school or to church make the car ride interesting by playing a game of I spy with my eye something created by God.

In Genesis, the first book in the Bible, we learn about everything that God created. He took 6 days to create different things. Can we name all of them?

Wow God creates the trees, the birds and the sky (Fill in the ones that were not mentioned by your children)

God is the creator of all things. He even created us. God says in His word that he knew us before we were even created!

Let us always remember to celebrate what God has created and give Him all the praise for all His beautiful creations.
